Africa?

How we see it.

This century, Africa will replace Asia as the driver of population growth

Global population projections, by region, bn

Why Africa?

- ✓ Expected to generate **11% to 15% GDP Growth** between 2011 and 2030
- ✓ By 2050, UN predicts there will be **2.5B Africans, about 25% of the global population**
- ✓ **Most megacities** (more than 100M people) by the end of the century will be in Africa
- ✓ **400 million new people** will become internet users by 2030
- ✓ **Fastest growing economies** are located in Africa
- ✓ **Fastest growing middle class** in volume
- **The demographic dividend**

Who Are We?

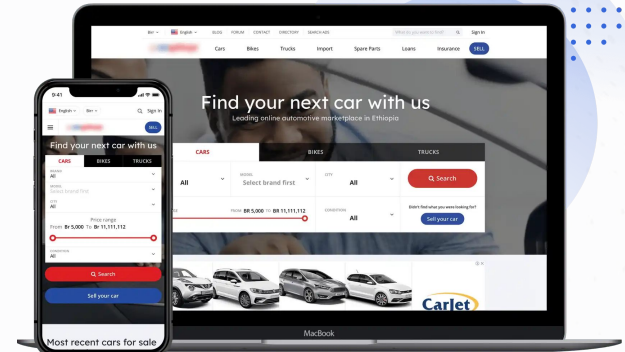

- ✓ **Africar Group Pty Ltd**, Australian company, based in Sydney, founded in 2016
- ✓ **Autos24.ci**, fully owned subsidiary in Ivory Coast
- ✓ **Local team of 25 people** at the end of September 2022
- ✓ **Global offices** in Sydney, Australia and Dubai, UAE
- ✓ **Tech team of 10 people** in Kathmandu, Nepal
- ✓ **Supported by the group Stellantis** (merger of the french PSA Peugeot-Citroën and italo-american Fiat Chrysler Automobiles)

Who Are We?

- ✓ We cover the **45 countries in Africa**, and are in the TOP 5 of each of these countries in terms of traffic and lead generation
- ✓ We have the **largest used vehicle database in Africa**, with over 100 million data points
- ✓ We have over **5 million people** in our network of pages and groups on **Facebook**
- ✓ **For more than 5 years**, we have been working with the **biggest players in the automotive ecosystem in Sub-Saharan Africa**, and assisting them in their **digital transformation strategies**.

→ **Regional and continental scalability**

The Current Problem

- ✓ **Trust and transparency do not exist**, or little, today, in second-hand car transactions in Sub-Saharan Africa
- ✓ The market for **professional sellers is informal, very fragmented**, and without guarantee and control from a qualitative point of view
- ✓ **Prices can vary greatly** depending on the customer, their negotiation skills, their contacts, etc.
- **We want to respond to this and provide a clear, transparent, trustworthy and quality offer.**

The same, Somewhere Else

- ✓ This business model **works very well all over the world**, whatever the market.
- ✓ **Solves the problems and difficulties of both parties:** sellers and buyers
- ✓ **Excels in emerging markets** where trust and transparency in this sector do not exist (Turkey, Mexico, Thailand, Indonesia, Poland, etc.)
- ✓ **Huge acquisition channel** for the financial partners of these businesses
- ✓ **The vehicle as a connector** for the various players in the complete ecosystem

Our Vision

- ✓ We buy vehicles from **local stock**, it's a real **circular economy**, thanks to our network of **local expert inspectors** and our **tech tools**
 - ✓ **We repackage services and tools** and enhance them, with **trusted local partners** like CFAO and the AutoFast network
 - ✓ We resell them with **100 transparent inspection points**, a complete package, 5 days money-back guarantee and 6 months warranty*
- **Let's bring, confidence, transparency and serenity in the purchase and sale of used vehicles in Africa**

Our Learnings, So Far

- ✓ Lack of trust and transparency is everywhere. **Everywhere.**
- ✓ **Lack of data integrity** is a big problem. 2020 cars registered as 2022 ones.
- ✓ **Once trust is restored**, everything is possible.
- ✓ **Leveraging classifieds for transactions**, not the contrary.
- ✓ **Bringing micro innovations** from car details to payments.

Abidjan,
on se djô!
