

# IMPROVING QUALITY AND SPEED – TOP 3 BEST PRACTICES IN CLASSIFIEDS MODERATION

Santiago Osorio – Trust & Safety  
**Utopia Analytics**

The background of the slide is an abstract composition of geometric shapes. Large, angular blocks in shades of blue and orange are arranged to create a sense of depth and perspective. In the center, there is a clear view of a bright blue sky with some wispy white clouds, framed by the surrounding geometric structures.

# Leverage AI to automate routine work

The background of the slide is an abstract composition of dark, curved lines that sweep across the frame, creating a sense of dynamic movement and architectural structure. The lines are set against a gradient of blue, transitioning from a lighter, almost white-blue on the left to a deep, dark navy blue on the right. The overall effect is modern and technological.

**Invest in technology  
that future-proofs your  
business**

**Think about modularity,  
scalability & TCO**

**Why is this important?**

# Thank you
